Do you run a business or a server farm?

Why are you spending money on servers, back-up storage, electricity, and staff for email and calendaring?

Enjoy the benefits of business class email in a 'pay-as-you-go' model that allows you to scale up or down as needed, with no risk. Hosted Exchange from **Equinox** allows you to free up valuable capital, IT staff, and opportunity cycles by outsourcing the planning, deployment, and maintenance of messaging infrastructure.

Equinox offers on-demand solutions that are implemented quickly and without disruption to your employees or operations.

Activates and deploys within minutes with a simple DNS record change
Offers a simple upgrade path for many outdated email platforms

Building on Microsoft's Exchange 2007 product platform, **Equinox** offers mailbox packages ranging in size from 500 MB to 10 GB. Of course, mobility including ActiveSync, Blackberry Server, iPhone, and email compliance services can be added as optional components. Each **Equinox** Service includes anti-span anti-virus, and continuous data backup.

Microsoft Outlook Email

If you want your email experience to be based on the traditional client-side application model **Equinox** offers Microsoft Outlook 2007. You can integrate Microsoft Outlook with Windows SharePoint Services, and Microsoft Live Meeting **creating a powerful business productivity engine.**

Outlook 2007 licensing, installation media, and automated configuration are included with this service.

Web, POP, and IMAP-based Email

With Equinox, you can choose how you want to access your hosted email: fully browser-based, or via their preferred Web, POP, and/or IMAP client applications.

Simplify   **Control Cost**   **Reduce Risk**   **Compete Effectively**

Each of the EIB offerings is ala-carte and pay-as-you-go.

There is no major long term commitment. So pick what you need as you need it.

Scale up or scale down as your business requires.
