eVoice IP Fax – Unified Communications service

Equinox eVoice IP Fax Solution service gives your business the ability to receive incoming faxes via email. Beyond convenience, this service ensures the privacy of your communications. You can also economically bundle this service with the many other productivity-enhancing features you receive from eVoice Hosted VoIP service.

How eVoice IP Fax Solution Works.

When you sign up for our IP Fax Solution service, you are assigned a DID (Direct Inward Dialing) number that can mimic the tones of a fax. When a fax machine dials the phone number corresponding to the IP Fax Solution DID number, the proper signals are sent to the fax machine to allow the fax transmission. The transmission is then converted into a PDF image file, attached to an email and sent to your designated email inbox.

The Bottom Line on eVoice IP Fax.

eVoice IP Fax Solution is a convenient, cost-effective and secure service. With it, you can:

- Receive faxes directly in your email account
- Access faxes, as long as you can access your email
- Read your faxes in the privacy of your email account
- Archive emailed faxes electronically, creating easier filing and documentation
- Forward emailed faxes to multiple parties with the touch of a button
- Buy as few as a single fax number
- Receive up to 150 incoming pages for a modest monthly recurring fee

CALL TO ACTION

You can preserve a consistent and professional image with a fax number in the area code of your choice, and port your existing fax number (as well as the existing E-FAX number) to our network. Also, because you are working with Equinox, you can bundle IP eVoice Fax Solution as part of our larger Hosted VoIP service that includes VoIP phone service, nationwide and international long-distance and a full suite of other productivity-enhancing features.

Contact us to learn how easy it is to get started on the path to Unified Communications.

Each of the EIB services is ala-carte and pay-as-you-go.

There is no major long term commitment. So pick what you need as you need it.

Scale up or scale down as your business requires.
